

DuPont™ Acid-A-Foam™ XL

SUPERIOR HEAVY DUTY HIGH FOAMING CLEANER AND DESCALER

DuPont™ Acid-A-Foam™ XL Superior Heavy Duty High Foaming Cleaner and Descaler:

- Breaks through scale, organic grime and mineral deposits
- Phosphate free
- Foaming acidic cleaner for use in alternating pH programs in hatchery, poultry, turkey, swine, cattle and other animal confinement facilities
- For use in food processing facilities
- Removes mineral scale, detergent residues and other elements left after repeated use of alkaline cleaners
- Excellent end-use compatibility with DuPont disinfectants
- Compatible for use along with DuPont disinfectants when following label directions
- Easy application and rinsing
- Formulated with Biodegradable Detergents

COMPONENTS

Components	CAS No.
Water.....	7732-18-5
Glycolic Acid.....	79-14-1
Sulfamic Acid.....	5329-14-6
Phosphoric Acid.....	7664-38-2
Surfactants.....	—

FOR INDUSTRIAL AND COMMERCIAL USE ONLY

KEEP OUT OF REACH OF CHILDREN

DANGER / PELIGRO

FIRST AID

IF INHALED: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

IF ON SKIN OR CLOTHING: Flush skin with water after contact. Wash contaminated clothing before reuse.

IF IN EYES: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

IF SWALLOWED: If swallowed, do not induce vomiting. Immediately give 2 glasses of water. Never give anything by mouth to an unconscious person. Call a physician.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

For 24-hour emergency information on this product, call 1-800-441-3637 (US & Canada) or 1-302-774-1139(all other areas).

PRECAUTIONARY STATEMENTS

DANGER. Concentrate causes eye and skin burns. May cause nose and throat irritation. May be harmful if absorbed through skin or swallowed. Do not get in eyes, on skin or clothing. Avoid breathing vapor or spray mist. Wear safety glasses. Where splash potential exists, wear chemical splash goggles. Where there is potential for skin contact have available and wear as appropriate impervious gloves, apron, pants and jacket. Wear NIOSH approved respiratory protection, as appropriate. Do not take internally. Use and store only with adequate ventilation. Wash thoroughly after handling.

CHEMICAL AND PHYSICAL HAZARDS: This product is a formulated acidic detergent solution; contamination with other materials such as chlorine, chlorine-bearing compounds, organic chemicals, etc., may cause a dangerous chemical reaction. Keep all chemical and foreign materials away from this solution.

STORAGE AND DISPOSAL

Store in original container, in areas inaccessible to children. Keep container tightly closed. Do not store on side. Avoid creasing or impacting of side walls. Do not reuse empty container. Discard in trash or recycle.

DuPont™ Acid-A-Foam™ XL Heavy Duty High Foaming Cleaner and Descaler is used as a general cleaner in an alternating pH program for hatcheries, poultry, turkey, swine, cattle and other animal confinement facilities to remove detergent residues, mineral scale, dirt, grime, protein, and oils as well as minerals and adherent films.

Alternating between DuPont alkaline, neutral, and acid-based cleaners maximizes surface cleanliness and, therefore, prepares the surface for the second step of disinfection. DuPont™ Acid-A-Foam™ XL is used in poultry hatcheries to clean walls, floors, ceilings of rooms, processing equipment, setters and hatchers.

DuPont™ Acid-A-Foam™ XL is used in poultry, swine and meat processing plants. It is used for floors, walls and shelves, processing equipment, utensils and walk-in-coolers. It cleans and brightens stainless steel, glass, plastic, concrete and tile in poultry, meat and canning plants.

DIRECTIONS FOR USE

FOAMING: Prepare a (1-3 ounces per gallon) (8-24 ml/liter) stock solution of DuPont™ Acid-A-Foam™ XL, or calibrate your dosing equipment to achieve this dilution. Apply using a foam lance onto all surfaces at an application rate of 0.8 oz/ft² (250 ml/m²). Allow a contact time of 5-10 minutes before thoroughly rinsing all surfaces with clean water at high pressure. After thorough cleaning and rinsing, let surfaces dry as much as possible and then follow-up with an appropriate DuPont disinfecting solution. Consult a DuPont Technical Representative for recommendations.

LOW OR HIGH PRESSURE WASHING: Prepare a stock solution of DuPont™ Acid-A-Foam™ XL (0.25-3.0 ounces per gallon) (2-24 ml/liter), or calibrate your dosing equipment to achieve this dilution. Spray the solution onto all surfaces at an application rate of 1.6 oz/ft² (500 ml/m²). Using hot water (130-160°F/54-71°C) will improve the effectiveness of the product, particularly in high grease situations. Allow contact time of 5-10 minutes before thoroughly rinsing all surfaces with clean water at high pressure. After thorough cleaning and rinsing, let surfaces dry as much as possible and then follow-up with an appropriate DuPont disinfecting solution. Consult a DuPont Technical Representative for recommendations. Note: Must use compatible O-Ring seals.

FOOD PROCESSING EQUIPMENT, UTENSILS AND OTHER FOOD CONTACT SURFACES: Follow foam cleaning instructions. Thoroughly rinse cleaned surfaces with potable water before they are reused. Where recommended or permitted, apply a sanitizer solution to food contact surfaces before reuse.

BEFORE USING, READ THE MATERIAL SAFETY DATA SHEET (MSDS) FOR THIS PRODUCT.
